The Reveal Frame™

EXCLUSIVE

The Amazing Reveal Frame™

Our own creation, designed to help Photographers and Artists create impact and increase sales. The Reveal Frame™ can hold 2 images at a time layered on top of each other; simply peel the top layer and reveal the second hidden print.

Reveal prints are produced to the same fine art quality as our standard prints but on an innovative ferrous film. This is then specifically designed to work with the Reveal Frame™ magnetic panel and deliver the perfect system.

Use it as a demo product! Wow customers during the viewing session, by unveiling their image on the final finished frame. They then purchase the permanent / fixed version of the same product.

Alternatively, revamp your whole studio and go from Newborn Photography to Family Portraits in seconds. This will help you display the right images to the right type of customers.

AVAILABLE IN 7 SIZES:

Portrait or Landscape:	Square:
20 x 16	20 x 20
24 x 16	24 x 24
30 x 20	30 x 30
36 x 24	

- Printed on an innovative ferrous film
- A glassless frame with interchangeable prints
- Sealed with a smooth matte finish
- Available in our shallow and deep tray frames
- Hi-definition 12 colour print quality
- Frame Production: 10 working days
- Replacement Prints: 3 - 5 working days

Order online at www.theprintfoundry.co.uk or call us **020 3212 2024** for more information.

How the Reveal Frame™ can work for you:

The Ultimate Sales Tool

Personalise the product to the client. Order a print and have it back to you before your clients viewing. Their print can be hidden behind another image (or logo), then at the end of the viewing session, reveal it as your favourite from the shoot 'here's one I made earlier' and get the wow & goosebumps feeling from the client.

Confidence & Connection

There is little relevance in showing off your latest pet portraits to the newborn session about to arrive. Instil confidence in the client and build an instant connect by displaying the type of images they are coming to you for.

The Big Switcheroo

Home Studio? Switch between your own family pictures and your latest work when clients come for viewings and shoots. This also shows clients the style and size you are happy to display in your own home, making the introduction of products to your packages much easier.

Shows & Events

For shows and events, you can now easily display your latest work for the world to see without trawling several large products everywhere. The Reveal Frame™ can be rotated between Landscape & Portrait to fit in with your exhibition space. With 2 prints held per product, you could even test out different images during the show to see which has a better response.

Window & Reception Displays

Perfect for high street studios. Display your Reveal Frames™ in your windows and change images regularly at low cost and create impact, convey key seasonal messaging and special offers.

Location Displays

Sponsored location displays have always been a valuable marketing tool, but now don't need to cost the earth and can be updated to keep them looking fresh. Whether you have large products on display at a specific wedding venue, franchise of pet grooming stores, or a sponsored wing at a maternity ward, you can now update the images regularly for impact and to keep them relevant to your current style. Don't forget to always add your branding to the front of each print.
